Article 22 Training Time And Time Away From Training

Section 1. Scope

This Article provides certain benefits governing leave, with or without pay and reflects the need for Residents to have adequate time off from training and work, as well as the need for the Hospital to ensure that Residents are meeting the training requirements of individual programs and certifying boards.

The length of the training program is determined by the ACGME. Residents are expected to complete the required training time and demonstrate satisfactory competence at each training level before promotion, and at the end of the training program. Residents who do not demonstrate competence at the end of each training level may be required to train for additional time at that training level. This time may exceed the ACGME program length. Determinations regarding the duration of such training shall be at the sole discretion of the Hospital. Any and all such determinations are considered outside the scope of this Agreement and, therefore, shall not be subject to the grievance and arbitration provisions of this Agreement, but may be appealed through the academic appeal process.

Residents are generally required to satisfactorily complete approximately 48 weeks of training time at each training level (*i.e.*, PGY-1, PGY-2, etc.). Residents are entitled to take time away from training as described elsewhere in this article. So long as a Resident is in good standing in

Docusign Envelope ID: 738FB4FD-92B0-8658-81C8-BFFEC4B2EFBA

the Residency Program and is meeting expected training competencies and milestones as determined by the Program Director upon the recommendation of the Clinical Competency Committee, the Hospital will not require a Resident to make up any time away from training unless it is mandated by the applicable specialty board.

Section 2. – Sick Time

The Hospital and individual programs do not expect a Resident to report for work when sick. As salaried employees, there is no loss of pay nor any charge to their PTO for time taken when sick. Use of sick time is subject to the Hospital's attendance control policy.

Section 3. Paid Time Off

All Residents shall be entitled to a total of twenty days (160) hours of paid time off (PTO) each academic year. PTO for vacations must be scheduled in advance in accordance with the Resident's individual department or program processes and procedures, and will not be unreasonably denied. Where a Resident has scheduled a week's vacation, it shall include one of the attached weekends. Residents will be charged five (5) days or forty (40) hours of PTO for one week's vacation. When a Resident takes a single day of PTO, it will be charged as one (1) day or eight (8) hours. Such requests shall not be unreasonably denied.

Program Directors have the discretion to approve Educational Conference days, and to determine whether such days count as training time. In such cases, Residents, as salaried employees, will continue to be paid without any reduction to their PTO. Such requests shall not be unreasonably denied.

Unused PTO does not accumulate and will not roll over from year to year, and is not paid out upon completion of the program or termination of employment. Residents may not use unused PTO time in order to make up for time away from training in any academic year and may not use unused PTO to complete their program early.

For Residents with an unpaid training gap between PGY levels (*e.g.*, a PGY-1 ending in June with the PGY-2 year starting July 1), PTO must be taken during the 12 months of paid employment. The unpaid training gap is not considered part of PTO as provided herein.

Section 4. Medical appointments

Residents may attend medical, mental health, and dental appointments during work hours. For non-urgent appointments, schedule arrangements must be discussed/planned in advance with the Program Director or the Program Director's designee for scheduling matters.

Section 5. Leave for Military Service

Military leave is covered by TJU Policy and is administered in accordance with the Uniformed Services Employment and Re-Employment Rights Act of 1994 (USERRA), along with any applicable state law.

Only the court, pursuant to the procedure outlined in the Jury Summons Notice, can grant deferment or excused absence from jury service. However, a Resident summoned for jury duty may request to be excused by virtue of participation in a graduate medical education program. The Resident may request from the Training Program Director a letter verifying the Resident's participation in the program to be submitted to the court.

Section 7. Family Medical and New Parent Leave

Consistent with Hospital policy, Residents shall be eligible for FMLA leave upon meeting the eligibility requirements of FMLA and may receive up to twelve (12) weeks of FMLA leave in any rolling 12-month period. Residents may use available PTO concurrent with FMLA to receive payment while on FMLA. Application for FMLA shall be administered by the Hospital pursuant to applicable policy. The maintenance and administration of FMLA policy shall be left to the Hospital's discretion, subject to the terms of this subsection and applicable law. In the event there are two Residents who are parents of a child, then both Residents will be entitled to leave under this section, provided however that if such parents are Residents in training in the same program, they shall not be approved for concurrent paid leave, except at the discretion of the Program Director, approval not to be unreasonably withheld.

Section 8. Bereavement Leave

A Resident shall receive paid time off for bereavement leave in accordance with Hospital policy, as amended from time to time. Current Hospital policy provides for up to three (3) paid days for bereavement purposes in the event of the death of the Resident's spouse, parent (including step-parents and current in-laws), children (including step-children and adopted children), siblings (including step-siblings and current siblings in-law), grandparents (including great-grandparents, step-grandparents and grandparents in-law) or another person residing in the same house as the employee. The Hospital shall give the Union 30 days' notice of any amendments to its policy and, upon request, shall meet and discuss any such amendments.

Section 9. Interviews

Residents and Fellows will be permitted to attend interviews during the academic year using PTO, unless they are able to swap shifts with a colleague, and on the condition that such swap is approved in advance by the program director, consistent with program or department policy, with such approval not to be unreasonably withheld.

Section 10. Medical Leave of Absence

Employees may request a medical leave of absence for a serious medical condition which shall not exceed 26 weeks including any weeks covered by FMLA in a rolling 12-month period. Application for medical leave shall be administered by the Hospital pursuant to applicable policy.

Docusign Envelope ID: 738FB4FD-92B0-8658-81C8-BFFEC4B2EFBA

Section 11. Family Care Leave

Employees may request leave either to care for a family member with a serious health condition or to care for or bond with a newborn or newly-placed (adopted or foster) child. Family Care Leave may not be taken intermittently. The total amount of leave shall not exceed 12 weeks including any weeks covered by FMLA in a rolling 12-month period. Application for Family Care Leave shall be administered by the Hospital pursuant to applicable policy.

Section 12. Personal Leave

A personal leave may be granted for up to 26 weeks in duration. Whether an employee may take the leave and the length of time permitted shall be determined by GME leadership based on Hospital needs. Personal leave may not be taken intermittently. Application for Personal Leave shall be administered by the Hospital pursuant to applicable policy.

Section 13. Meeting Training Requirements

Notwithstanding any of the above provisions for time away from training, Residents are required to meet the training hours requirements of their respective programs.

Section 14.

Any leave mandated by ACGME and not provided above shall be governed by ACGME mandates.

Article 24 Personal Days

Residents will be provided two (2) additional personal days to be scheduled as per Department procedure. Requests will not be unreasonably denied.

Article 25 Out Of Title Work

Consistent with ACGME requirements, the Employer agrees to accomplish program learning objectives by minimizing Employee work that is extraneous to their ACGME accredited program and without excessive reliance on Employees to fulfill non-physician obligations, duties, or tasks.

Out-of-title work concerns will be a standing item on the agenda at Joint Labor Management Committee meetings. The parties shall jointly review and identify trends and address root causes.

Section 1. Definition

A. "Out-of-title work" is defined as duties or responsibilities that are not commensurate with the scope of practice, level of training, and assigned title of a House Officer as outlined in the Accreditation Council for Graduate Medical Education (ACGME) program requirements, applicable specialty board regulations, and the House Officer's program-specific job description.

B. Out of title work shall not be used permanently to supplant other classifications.

Where the Union believes that the use of out-of-title work has become systemic within the Hospital or any external rotation, the Hospital, upon request of the Union, will convene a special Labor-Management Committee meeting within twenty (20) days, unless a regularly scheduled meeting occurs sooner, to discuss the issue and to explore ways to alleviate the condition.

Article 28 Joint Labor-Management Committee

Section 1. Purpose

The parties agree to establish a Joint Labor-Management Committee (JLMC) to foster open communication, build mutual understanding, and collaboratively address workplace issues affecting Employees; provided, however, the JLMC shall not engage in negotiations, nor shall the JLMC consider matters that are properly the subject of a grievance, unless mutually agreed by the parties.

Section 2. Composition

The JLMC shall be composed of an equal number of representatives appointed by the Union and the Employer. Each party may appoint up to five (5) representatives, and may include bargaining unit members, administrative representatives, and other relevant stakeholders. Either party may invite subject matter experts or observers as needed, with prior notice to the other party.

The JLMC shall meet quarterly, and may meet more frequently by mutual agreement. Article 29 Grievance Procedure

Section 1. Definition

A grievance shall be defined as any dispute between the Union and the Employer concerning the interpretation, application, performance, or alleged breach of any express provision of this Agreement.

Disputes concerning a Hospital assessment or evaluation of a bargaining unit member with respect to academic or clinical performance—including but not limited to ACGME or Hospital competencies, eligibility for promotion, renewal, or graduation, or requirements set by specialty boards—shall not constitute a grievance under this Agreement, except that a grievance may be filed, if necessary, to require access to the applicable institution's academic appeal process.

Residents may appeal actions related to academic performance under applicable institutional academic policy. Residents shall retain the right to Union representation in such appeals, including selecting a Union representative other than legal counsel as an advisor.

Section 2. Grievance Processing

A. Informal Step 1

Prior to initiating the formal grievance procedure, a Resident or the Union may optionally confer informally with the Program Director (PD) or the ACGME Designated Institutional Official (DIO) or their designee to attempt resolution. This step may be skipped at the discretion of the Union.

B. Step 2

The Union must submit a formal grievance in writing to the designated institutional official (e.g., DIO or GME Chair) within fourteen (14) calendar days of the incident or the conclusion of Step 1, if used. Upon request, a meeting shall be scheduled with the grievant(s), Union representative(s), and relevant department leadership. Each party may present testimony or documentation informally. A written response shall be provided within thirty (30) calendar days following the meeting.

C. Step 3

If unresolved after Step 2, the Union must request a meeting with the appropriate designee of the Department of Human Resources within fourteen (14) calendar days of the Step 2 response. A meeting shall be scheduled, and a written response issued within thirty (30) calendar days after the grievance meeting is held.

Section 3. Employer Non-Response

Failure by the Employer to respond at any step shall not be deemed agreement, and the Union may advance the grievance to the next step.

Docusign Envelope ID: 738FB4FD-92B0-8658-81C8-BFFEC4B2EFBA

Section 4. Union Rights

Only the Union, and not individual employees, may advance a grievance beyond Step 2. Grievances not filed or advanced within the specified timeframes will be considered waived, unless extended by mutual written agreement. The Employer and Union may mutually agree in writing to modify timelines to accommodate patient care emergencies, Resident scheduling, or other operational needs.

Section 5. Scheduling Consideration

The Employer shall make reasonable efforts to consider ACGME duty-hour requirements and Resident work schedules when scheduling grievance meetings.

Article 30 Arbitration

Section 1. Right to Arbitrate

Any grievance that has been processed through the mandatory grievance procedure (Steps 2 and 3) and remains unresolved may be submitted to arbitration by the Union within fourteen (14) calendar days after the Step 3 response. The parties shall endeavor to agree on an arbitrator within fifteen (15) calendar days of the filing of the arbitration demand. If the parties cannot agree on an arbitrator within that timeframe, the matter shall be submitted to the American Arbitration Association (AAA) or another mutually agreed-upon arbitration service. Arbitration shall be conducted at a mutually agreed-upon location. Only the Union, and not individual employees, may initiate arbitration. Failure to file and serve within the time limitations shall constitute a waiver of arbitration.

Section 2. Arbitrator Authority

The arbitrator's jurisdiction and authority shall be strictly limited to the specific provision or provisions of this Agreement at issue between the Union and the Hospital.

The arbitrator shall not have authority to review or modify any decision regarding a Resident's academic proficiency, clinical performance, or educational judgment. The arbitrator's award shall be final and binding if within the scope of their authority.

Section 3. Costs

Each party shall bear its own costs. The Union and Employer shall share equally the arbitrator's fees and other shared administrative expenses.

Section 4. Release Time for Arbitration

Residents who are grievants or witnesses in arbitration hearings scheduled during work hours shall be released with pay. The Union shall submit requests at least seven (7) calendar days before the scheduled hearing. Article 31 Maintenance of Terms, Conditions and Superior Benefits/Minimum Standards

Section 1. Minimum Standards

This Agreement establishes minimum standards for wages, hours, benefits, and other terms and conditions of employment. Nothing in this Agreement shall prevent the Employer, in its discretion, from providing higher wages, greater benefits, or more favorable terms and conditions—whether generally or to specific departments, programs, or individuals.

If the Employer decides to reduce, eliminate, or modify any material benefits or terms and conditions of employment during the term of this Agreement which are mandatory subjects of bargaining, the Employer will engage in bargaining with the Union over the effects of any such changes as required by law. The parties will meet within thirty (30) calendar days of the Union's request to engage in effects bargaining, and will endeavor to meet as soon as possible. When possible, the Employer will notify the Union of such changes, if known, at least forty-five (45) calendar days in advance. When advance notice is not possible, the Employer shall provide notice within five (5) calendar days after such change, if known to the Employer.

In the event the Hospital is unaware that a material benefit changed in a particular program or rotation, the parties will meet within 30 days of either party becoming aware of the change and requesting to meet and engage in effects bargaining.

Article 32 Severability and Savings Clause

Should any provision, article, or section of this Agreement be found to be invalid, unlawful, or unenforceable by a court of competent jurisdiction or by any federal or state agency with proper authority, such determination shall apply only to the specific provision deemed invalid and shall not affect the validity or enforceability of any other part, article, or section of this Agreement.

The parties agree that the remainder of the Agreement shall remain in full force and effect and shall be interpreted so as to best give effect to the intent of the parties at the time of execution. It is the express intention of the parties that this Agreement be preserved to the fullest extent possible under the law.

In the event any provision is rendered unenforceable, the Employer shall not take unilateral action to implement changes based on that decision. Instead, the Employer and the Union shall meet within fifteen (15) calendar days of such a determination, or sooner if mutually agreed, to bargain in good faith over the impact, effects, and—if necessary—a mutually acceptable replacement provision. The Union retains all rights to demand bargaining, including effects bargaining, and to take any and all lawful actions in response.

Article 33 Duration

The terms and conditions of this Agreement shall remain in effect commencing June 1, 2026 and continuing through June 30, 2029. This Agreement shall be automatically renewed and extended year to year and thereafter without additions, changes or amendments, unless either party serves not in writing to the other party no less than ninety (90) days before the end of the duration term to change, amend or add to this Agreement.
