February 11, 2025

To ALL NURSING STAFF:

It is the expectation that the nursing staff at NYC Health+ Hospitals | Jacobi | North Central Bronx draws stat bloods, bloods ordered outside of the lab collection times, blood cultures, and starts the patient's IV's. If after the second attempt, and a nurse colleague is unable to obtain the blood or start the IV, these attempts will be communicated to the provider.

Suzanne Pennacchio, CNO
